Lift, Firm, Tone And Revitalize Your Skin With...

Microcurrent Advanced Facial Contouring

Beneath the skin, the facial muscles become overly contracted over the years with facial expression and constant 'gravity', declining the overall lift of our face. ATP levels (cellular charge) in our body decrease with age, similar to a battery gradually losing its charge, leading to decreased muscle tone and collagen / elastin breakdown, resulting in thin, saggy skin, age spots, uneven skin texture and tone, lines, wrinkles and folds in our skin.

Microcurrent Advanced Facial Contouring Lift mimics our body's natural electrical impulses, increases ATP levels by 500%, uses "muscle re-education": the process of lengthening or shortening muscles to literally charge facial skin and muscles back to its more youthful state. Increased ATP levels in the cell mitochondria transport energy for use in metabolism throughout the cell, allowing all cellular activity, DNA replication, regeneration, tissue repair including collagen and elastin synthesis and neurotransmission. **As ATP levels stockpile, muscles stay in the re-educated positions for longer periods of time enhancing function, condition, colour, healing and overall skin health and the underlying tissue targeting:**

- Visible firming, contouring, toning and lifting overall drooping features
- Rejuvenates and hydrates; skin appears smooth, soft and even-toned
- Tightening of sagging jowls, doubling chins, and fatty cheeks
- Induces relaxation and healing in all skin types and conditions
- Enhanced blood circulation and lymphatic drainage
- Reduction of dark circles and puffiness under eyes
- Reduction of fine lines and wrinkles
- Reduction of blackheads, Acne and congestion
- Reduction of scars, pitting and enlarged pores
- Reduction of Eczema, Melasma and Rosacea

A remarkable difference is seen after the first treatment. Cumulative results are best achieved over a series of 8-15 treatments with ATP stockpiled, where by the 6th treatment muscle memory takes over and progress becomes more rapid and longer lasting. A maintenance treatment is then recommended every 4-6 weeks for longevity of the lift.

Dr. Chi, Director of the University Of Washington Department Of Pathology, performed clinical studies using the Bio-Ultimate Gold manufactured by Bio-Therapeutic. He noted the following results about how Microcurrent technology works in harmony with the body and skin tissue:

FACTS & FIGURES

45%
increase in the number of elastin fibers in the dermis

The
length of the elastin fibers on average doubled

35%
increase in the number of blood vessels

28%
increase in lymphatic drainage

Skin
and Tissue produced a firmer and tighter feeling on the skin surface.

30-40%
increase in protein synthesis and membrane transport

10%
increase in collagen thickness in the connective tissue

Microcurrent Turbo Lift (\$120): Works deep in the muscles & tissues to quickly lift & tone the skin delivering immediate, dynamic & results!

Optimise Microcurrent Results with LED Skin Revive Rejuvenation (\$120): Light energy transforms into ATP in a cell. Increased ATP levels repair/regenerate cell components, foster cell proliferation & restore homeostasis e.g. fibroblast cells increase collagen & elastin production in connective tissue.

Energy Blanket treatment (\$60): Induces body & mind to rest, recover & re-energise as per diagram below. Our subtle body energy gets depleted because of internal & external influences. This treatment rebalances & restores body's in-built energy system (P.T.O for more info).

Body, Mind & Skin Rejuvenation Pack

Featured in Harper's Bazaar, Allure & Vogue, this treatment is loved by Hollywood Stars like Angelina Jolie & Madonna for its great skin re-building and volumising results. Dermapen Skin Needling stimulates the body's natural wound healing response, enhancing collagen production with less trauma, downtime & minimum discomfort.

Dermapen benefits include:

- Refines pores / Firms skin

Induce your body and mind to rest, recover and re-energise with the Energy Blanket Treatment...

...for a rebalanced and restored energy system. Our subtle body energy gets depleted or disordered because of daily internal and external influences.

The effects of the Energy Blanket are achieved through:

1. Reflecting away external energies that influence our body
2. Reflecting back to itself our body's own energies (infrared and ultra-high frequency emissions) helping it to energetically re-compose itself.

A special membrane composed of several layers inside the blanket not only prevent the body's energetic emissions from dissipating outwards, but also reflect the emissions back onto the body redistributing them on the skin, and exerting energetic action on the key-points of the body's surface. Impulses to the central nervous system from the reflected Infrared radiation trigger the appropriate thermo-regulative mechanisms in the body.

How Does it Feel?

Being wrapped in the Energy Blanket is a completely safe and pleasant sensation. As external influences get blocked and/or reflected away, you become aware of subtle shifts in the body as healing and restoration of energies occur. After a period of warmth, you will experience a sense of inner peace and quiet that leads towards a state of repose something like meditation.

YOUR SAY about Renajo...

"Juggling a busy life often comes at a dear price. For me, it is my skin that suffers extensively from my poor diet and hectic lifestyle. I came to see Gurwinder with a VERY dehydrated and inflamed skin to a point that certain sections of my facial skin were oozing and it was painful.

She treated my skin with a mixture of ultrasonic infusion, microcurrent infusion, hyaluronic mask and LED treatment, and the cherry on top was the low level laser to rebalance on various energy points.

I had all of the above treatments done whilst wrapped in an energy blanket. It was magical. I am not exaggerating when I say that within 24 hrs of having the low level laser and energy blanket treatments, I slept like a log and when I woke up, my skin was looking and feeling healthier, the oozing stopped and the open wounds were healing. The inflammation subsided and most importantly my overall being feel energised.

I highly recommend the low level laser and the energy blanket for everyone to add on to their regular treatment. Because the benefits are there more than just for the skin. It relaxes the body and mind, rebalanced the internal energy and promotes healing from the inside and really, it helps the skin to absorb the products and its benefits.

What more could one ever ask for really? Thank you Gurwinder !! Cheers"
