SKIN CLINIC

Aug/Sep 2017 Skin Health Newsletter & Specials

Microcurrent Contouring combined with fascia work, delivers amazing results through cellular regeneration, muscle re-education, deep product penetration & stress release within the fascia. This optimises communication channels in the skin. Fascia, a tough fibrous three dimensional web, holds the connective tissues (bones, muscles, organs, blood vessels & nerves) together. Like our invisible second skin, fascia helps keep our physical shape.

As myofascial tightness affects the appearance of our face, releasing it can improve, maintain & restore a more youthful appearance & vitality. This microcurrent-fascia duo combination delivers impressive long lasting results for all skin types & conditions including the most sensitive, problematic, ageing & age preventative. This makes it an ideal treatment for all ages!

Microcurrent, an extremely low level electric current penetrates deep into the skin to the muscle (see diagram below). It literally charges the skin & muscles back to its more youthful state by increasing cellular energy ATP by 500% per session. This allows DNA replication, regeneration, tissue repair & healing including collagen & elastin synthesis. Benefits: (...Continued from overleaf)

Induce your body & mind to rest, recover & Re-energise with the...

YOUR SAY about Renajo

"After my third "New Age Defiance Contouring Lift & Massage Treatment" the skin on my face and neck looks so good that I have gone out without makeup for over a week & that is something I never do.

The lines between my eyes has disappeared, my eyes look more open, my jawline has improved & the fat under my chin has certainly diminished. It is great to lie there & be treated to such a pleasurable treatment, wrapped up in the wonderful blanket letting your healing hands work their magic. I am looking forward to finishing the recommended series of treatments & to receiving optimum results. Thanks so much."

Lyn L, Heathmont

Unfold Your Facial Muscles like a Lotus Flower For Visibly Lifted, Toned, Tighter & Youthful Looking Skin with **NEW, IMPROVED & LASTING RESULTS...**

... Age Defiance Countouring Massage & Lift

A signature duo combination that tones the facial muscles while releasing fascia stress & tension, delivering dramatic results. This extremely effective & blissfully relaxing microcurrent treatment combined with trigger points & fascia massage strengthens, re-educates & lifts tired muscles back into their youthful position. As a workout for the face, neck & décolletage, this treatment keeps the muscles toned, healthy & in shape, draining the lymph, increasing blood circulation & hydration in the skin while visibly lifting the brows, cheeks & the jaw line. Results include longer lasting contoured lifting, collagen stimulation & remodeling, increased volume, & the flushing of toxins with skin appearing more firm, radiant, refreshed, intensely hydrated & youthful. Age Defiance Contouring Lift & Massage can be had on its own or combined with other treatment modalities for optimised results, in a series of 6, 10 or 12 for outstanding results & a maintenance thereafter!
