SKIN CLINIC Nov/Dec 2017 & Jan 2018 Skin Newsletter & Specials

Dear Esteemed Clients,  
Sending you my most sincere Christmas wishes. Thank you and I hope you have a beautiful holiday season and a wonderful 2018!  
Sincerely, Gurwinder Sokhi

## Give Your Skin a NEW Lease of Life with Core Skin Restore that helps...

...reverse sun damage, clear acne, diminish fine lines & wrinkles, even out skin tone and fades sun/age spots delivering phenomenal visible results of a healthier, radiant and glowing younger looking skin. As this fast acting dermal skin rejuvenation treatment aims to **Rehydrate, Repair, Restore and Regenerate skin cells** by working deep within the skin, it **re-strengths the skin foundation** making it ideal for all skin types & conditions.

Core Skin Restore treatment comprises of 4 advanced skin technologies which work together in perfect synergy with unique advanced cosmeceutical-grade skincare deep within the skin to balance naturally occurring skin functions, restoring skin to its peak condition! It aims to re-build and re-strengthen the structural integrity of the skin at the cellular level, creating a healthy environment for cells to live and thrive in. As it restores youthful skin function that helps repair the damage in the skin, this makes Core Skin Restore great at working on a multitude of skin issues, therefore ideal for anyone suffering from severe skin-issues to someone who wants a stronger, healthier and glowing youthful looking skin that keeps on improving as time progresses.

It helps remove dry dead skin cells, repairs, restores & optimizes skin cell function, increases collagen and elastin production, oxygenates cells by flushing fresh blood and nutrients throughout the skin network, and removes toxins through increased lymphatic drainage. Trans-dermal infusion of potent vitamin complex, peptides and nourishing antioxidant mask helps break down potentially harmful free radicals in skin cells (which may cause tissue damage) enhancing repair, restoring youthful skin function by speeding tissue repair. This helps balance over production of oil flow and pigmentation as well as turns back the clock on ageing and sun damage with your skin getting healthier and youthful.

While visible results are noticed after your first treatment, the best results are achieved with a series of 6- 8 treatments with once weekly or fortnightly, depending on individual skin conditions & desired results. Core Skin Restore when had in combination or adjunct to other advanced treatments like Radio Frequency, Dermapen & Microcurrent Facial Sculpting and Massage deliver superior optimised results!

**Please read the Testimonials on Core Skin Restore together with Before and After photos.**

*P.S. In order to progress onto the second session your skin must be prepped by using specific recommended home care products for at least one week prior to the second treatment.*

## "My Progressive experience of Core Skin Restore Treatment"

**1st session** - Skin felt extremely hydrated, actually plumped.

**2nd session** - Skin looked radiant, kind of a healthy glow.

**3rd session** - Skin looked youthful, glowing, radiant and lifted. Also freckles and pigmentation lightened.

**4th session** - I feel all the above and also minimised lines on forehead, eye area plumped up & definitely facial contour feels firm and lifted.

After the 3rd & 4th session I felt some dryness and a bit sensitive which I understand is due to retinol infusion. Overall my skin is looking amazing, very youthful, radiant, plumped, lifted and brighter."

- Daksha P, Mount Waverley

"I am 19 years old and have been suffering from acne for many years. My mum sent me to see Gurwinder at Renajo skin clinic and I really didn't think it was going to help because I had tried antibiotics and strong medicines from the doctor in the past and it hadn't helped much.

After only a couple of treatments together with recommended diet change my skin looked heaps better and I had comments on how my skin was looking healthy and clearer. Acne, redness & congestion under the skin has cleared up so much and the big pimples I had on my face are so much better now. I feel more confident and the creams I got from Gurwinder to use at home are easy and quick to use before and after work which help to keep my skin looking just as good as it does after a treatment and protect it while I'm working as a tradie outside. I know I'm on the right track and I am not using any bad chemicals in what I'm using each day.

Thank you, I would highly recommend these treatments and products to anyone with skin and acne issues, they really are helping and I will keep using them."

- Patrick H, Heathmont

## YOUR SAY about Renajo

*"After many years of teenage/adult acne, excessive oil production, large pores and years of rosacea I decided to try this treatment as an alternative to the chemical medicines offered by my dermatologist and doctor, as I was not seeing any results.*

*Instantly after the Core Skin Restore treatment I saw a reduction in redness on my face and a plump, alive, hydrated look and feel. Honestly from experience although skeptical of how long that effect would last I was pleasantly surprised at how each day since then it has continued to improve especially by using my at home skin products. The acne has reduced dramatically, the rosacea doesn't have it's regular daily flare ups as it unpredictably always did and around my eyes have plumped up and look a lot more youthful. The large pores are a lot smaller and hardly noticeable too which is a huge plus!*

*I am on a very tight budget, but the at home skin care products were definitely worth the investment as they seem to renew & rejuvenate my skin each morning and night, just like I have been for another treatment, it must give the skin the regular booster it needs and keep it working for me with all the vitamins and hydration.*

*If you are debating whether or not to try these treatments or products, please give them a go as they have definitely worked for me and have a lasting effect.*

*Thank you Gurwinder!"*
