"Healing & Energising" Treatment...

...uses nature's own healing Far Infrared Light, Amethyst Crystals regenerative effects and completes with the nourishing, balancing, clearing, energising and pleasant protection of the NEW BioBlanket. All these combined amplifies nurturing self-love, healing and peace, attuning the body and mind to clear, rest, recover and revive. An ultimate blissful experience that transforms normal rest into deep relaxation and renewal leaving you feeling completely rejuvenated.

Far-Infrared Light energy is Nature's own healing and energising heat that is widely used for its anti-inflammatory effects on the body. It's radiant heat can deeply penetrate from 3 to 10 cms into the body, creating deep nerve, organ, joint, muscle and tissue warmth, reducing stress, relieving pain, by increasing circulation and metabolism, facilitating normal core body temperature. Amethyst jewel, a healing crystal is now proven to be a good conductor and when heated delivers more of the highly absorbable, nourishing, longer wave, Far-Infrared Energy.

Infrared light deeply penetrate into the body
This Healing and Energising treatment delivers a core activation thermal therapy that deeply penetrates the body to support in restoring and raising your core body temperature, metabolism and blood circulation, for better health and healing. You will feel a comforting, nurturing, deeply warming and relaxing sensation in the body, promoting relief from muscle tension, joint stiffness, and pain relief. People report feeling better and moving better. Many people are so relaxed they can easily fall off to sleep.

\$60 Per Session
