

DETOX Your Skin After the Party Season with Exclusive BESPOKE Skin Corrective Solutions + Combined with The NEW...

...Kansa Face Massage treatment, pronounced Khan-Sah and known as the sacred Healing Metal in Ayurveda, the oldest healing Science of Health and Longevity in the world, practiced throughout India. Kansa means bronze, an innovative metal alloy of copper and tin, created some 5000 years ago.

Kansa's great therapeutic value, its electro-conductivity quality, was introduced as a precious metal in Ayurvedic treatments. Kansa tools have been used for centuries in India to naturally enhance overall health for increased strength and energy while reducing stress. Copper supports collagen that is essential for good skin health, resiliency and vibrancy, which explains the benefits of drinking from copper vessels. The Kansa massage treatment gently stimulates the Ayurvedic marmas, (energy points where tissues meet and the invisible energy meridians) and trigger points. This unblocks the energy channels, improving the body's natural healing mechanism. It detoxifies, removes acid and revitalises the skin while re-balancing the doshas (vata, pitta, kapha).

I recently did my training in Ayurveda Kansa Facelift Massage at the Champissage International London, accredited by the Complementary Medical Association of UK. I am pleased to offer this unique and pleasant detoxing, repairing and healing Kansa Treatment Massage. It works harmoniously and holistically as an add on with our other Advanced Skin Treatments at Renajo, to relax, and balance the mind, body and spirit, erasing stress and tension. Ideal for all skin types and conditions it delivers outstanding results from ageing to problematic skins like sensitive, acne, rosacea and pigmentation, increasing skin health and resiliency for a glowing youthful complexion! See Beth's before and after photos below and on right

Benefits of Kansa Face Massage Include:

- Delivers a youthful, alive and vibrant skin, improving blood circulation and oxygenation
- Refreshes skin tone, texture and brightness delivering a youthful, plumped and healthy glowing complexion
- Improves lymphatic drainage, enhancing toxin removal
- Combats effects of skin pollution, stress and internal imbalances easing stress and tension
- Draws heat, acidity and toxins from the skin, calming inflammation and redness, helping skin become fresh and clear
- Safe and natural treatment that restores energy, promotes deep relaxation, rejuvenation and revitalisation
- Helps reduce puffiness, fine lines and redness around the eyes

After My First Session...

"...My skin is looking and feeling amazing, hydrated, plump, lifted with significant reduction in skin redness and puffiness."

I came in couple of days post migraine with pain going through my jaw, head and eyes. Had an appointment booked with my Osteopath for the day after the treatment which I had to call and cancel as I was completely relieved of that pain from your amazing massage! Would I have this treatment again? Yes definitely, loved the results and the whole body experience!"

Beth C, Essendon

Have Superior Skin Restoration Results With NEW Dermapen 4's Exclusive Restore™ Collagen Induction Therapy (CIT)...

...using, the innovative state of the art skin needling technology aimed for the safest and highest performing treatments now being offered at Renajo Skin Clinic. This advanced corrective skin treatment creates rejuvenating micro-channels into the skin's matrix to initiate and stimulate the body's natural healing and regenerative response. Dermapen 4 promotes faster scar healing and increased production of normal woven collagen, similar to fractional laser treatments but without the side effects and downtime.

Dermapen®4, the world's only micro-needling pen features AOVN 4 technology for faster oscillation delivering more comfortable treatments. The 16 pin cartridge creates 1920 rejuvenating micro-channels per second, which is 47.69% more than Dermapen 3, and 104% more than the average counterfeit micro-needling device. The extra 620 micro-channels in your skin allows for a better healing response, delivering superior and faster results. It's advanced adjustable needle depths allow for a customised treatment, tailored to your individual needs, plus safely treating the delicate and hard to reach areas like around eyes, lips and the nose, while the disposable cartridge eliminates the risk of cross-contamination. Dermapen 4 Restore™ CIT Program delivers a versatile, effective and customized skin restoration treatment with dramatic results with speed, safety, drag and comfort offering you a skin restoration program that has been specifically designed to treat:

- Acne / Congestion
- Fine lines and wrinkles / Ageing
- Sun damaged
- Pigmentation / Uneven skin tone
- Uneven skin texture
- Enlarged pores
- Acne Scarring
- Stretch marks / Scar Tissue

Renajo Skin Clinic specialises in Super Charged Combination Therapy where two, three or more complimentary modalities are combined in a treatment with the aim to intensify, optimise and enhance the treatment for a dramatic outstanding skin rejuvenation result! Excellent combination treatments include Radio Frequency, Kansa Massage, LED, Microcurrent and Anabolic peels (see below). Although one treatment will deliver results, the number of treatments required for your desired results is based on your areas of concerns and the skin's condition!

YOUR SAY about Renajo...

"After the Derma Refine, Detox & Revive treatment with Kansa Massage my skin has less redness, smaller pores and looks more even toned.

I felt so relaxed which lasted for so long. The good hydration in my skin gave a good reflection of light. I had no breakouts despite going through the stressful time of my exams and during my monthly cycle - and having NO breakouts is unheard of. Simply amazing, absolutely loved it!

Olivia C, Bacchus Marsh

Kansa Massage treatment feels so good, so relaxing. I can feel it doing something like blood flowing around my face!

Sophia K, Glen Waverley
